

### Custom Resource Management Solutions

Whether responding to an unforeseen change in project priorities, or infusing your team with a specialized skill set to meet an identified objective, strategic staff augmentation can provide a flexible and timely solution to your business needs.

At MAPSYS, we offer a full range of workforce solutions and service delivery models to equip you with the people, skills and competencies you need to succeed.

- **Contract Staffing:** Also referred to as Staff Augmentation, MAPSYS is able to provide highly skilled resources for temporary projects or long-term support engagements.
- **Recruiting & Direct Placement Services:** MAPSYS is able to partner with our Clients to source and deliver qualified candidates for both contract-to-hire and direct hire positions.
- **Managed Staffing:** A true collaboration, MAPSYS acts as an extension of your IT Team, providing on-demand staff augmentation that is able to efficiently react to the changes in your business and project needs.
